Additional Product Information
<p>Plug-in Van Grant</p> <p>You can save 20% (up to a maximum of £8,000) of the price of a Partner Electric thanks to a Government grant. The grant is available to all customers but can only be claimed by Electric Vehicle Dealers and must be processed before vehicle registration. https://www.gov.uk/plug-in-car-van-grants/overview</p>
<p>Normal Charge and Rapid Charging Modes</p> <p>Normal Charge - Carried out via a standard 3 pin-plug which allows the vehicle to be charged in 12 hours, alternatively the vehicle can be charged in 8 hours via a dedicated charging point. This method of charging is most suited to vehicles that are parked overnight or during the day in one location. The charge point for this mode of charging is located on the offside front wing.</p> <p>Rapid Charge - Carried out at a special rapid charging station and takes only approximately 30 minutes to reach 80% of the capacity of the battery. The special cable for fast charging, secured to the station, is connected in the charging flap located at the rear nearside of the vehicle.</p>
<p>Range and Battery Information</p> <p>Range Information – Providing up to 65 miles all electric range and 80 miles city electric range per charge under the new WLTP* testing procedure. Please only compare electric range figures with other vehicles tested to the same technical standard (WLTP* rather than the outgoing NEDC* procedure). The electric range you achieve in real life conditions will depend upon a number of factors including the starting charge of the battery, accessories fitted (post registration), variations in weather, driving styles and vehicle load.</p> <p>Battery Pack – Consists of 80 cells split into 2 parts located underbody. Both contained under the body of the vehicle at the rear with no impact on load volume. The electric motor is located under the bonnet at the front of the vehicle.</p> <p>* World Harmonised Light Vehicle Test Procedure (WLTP) gradually replaces New European Driving Cycle (NEDC)</p>

PEUGEOT ASSISTANCE

All new Peugeots come with Peugeot Assistance, our breakdown assistance service. Provided by the AA, Peugeot Assistance is available every minute of the day and night, 365 days of the year, for you and anyone else driving your Peugeot with your permission.

Please note that Peugeot Assistance provides assistance in relation to vehicle warranty based faults on your Peugeot. It does not provide cover for non-vehicle warranty faults such as:

- the use of incorrect fuel, or lack of fuel
- wheel changes, punctured tyres
- instances where keys have been locked inside the vehicle, lost or stolen.
- road traffic accidents

Peugeot Assistance is free for the first year and includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. Peugeot Assistance can be extended for a further 12 or 24 months, or to protect you against non-vehicle warranty fault incidents, at specially discounted rates for Peugeot owners by calling 0870 752 7050. Call charges to this number from landlines and mobile networks may vary. For more information please contact your phone provider.
